

**COLLINGE'S PATENT HINGES.**—Manufactured by CHARLES COLLINGE and CO., 46, Prince-st., Lambeth, where a great variety are always on hand. These hinges are adapted for use in all cases where a door of large and small dimensions, a gate of a turn-wright's wheel, or a large gate of a mill, is required to be opened and closed. They are adapted for drawing-rooms, &c.; doors set with them can be removed and replaced in an instant. Metals and their alloys, brass, iron, steel, &c., are used in the manufacture of these hinges, and superior quality of workmanship is guaranteed. For particulars apply to the Patent Office, or to the Manufacturers, Messrs. COLLINGE & CO., 46, Prince-st., Lambeth. *Engines, machinery, patent iron, brass, &c.*
